Community Style
What to Bring to College Village

Community style provides residents with the opportunity to experience meet more students in a more traditional setting. College Village provides a private furnished bedroom with access to communal lounge, bathroom, and a shared kitchen on a communal floor. Our Maintenance team provides weekly sanitization to common areas and residents are expected to contribute by taking responsibility for their belongings and cleaning up after themselves daily.

The following items are recommended supplies students will most likely need for the academic year:
